***Response to Amendment***

The examiner is in receipt of applicant's response to office action mailed 1/13/2005 which was received 5/16/2005. Acknowledgment is made to the cancellation of the amendment to claim 1, claim 3, the withdrawal of claim 4, and the addition of claims 5-9, leaving claims 1,2,5-9 as pending in the instant application. The amendment has been carefully considered and was found to warrant a restriction of the species, which follows:

***Election/Restrictions***

This application contains claims directed to the following patentably distinct species of the claimed invention:

Group IA – 1,2,5,7

Group IB – 1,2,6,7

Group IC – 1,2,7-9.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

Art Unit: 3625

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
